# What we said to our clients:

Hello,

On behalf of Home at Heart Care, we would like to get your feedback on how we are doing as your Personal Care and/or Homemaking provider. Completing this survey is completely optional. You do not have to respond if you do not want to. However this is your opportunity to grade us on how we are doing. We value your input in helping us become a better provider. Please rest assured that your response, or lack of response, will in no way negatively affect the care or services you receive.

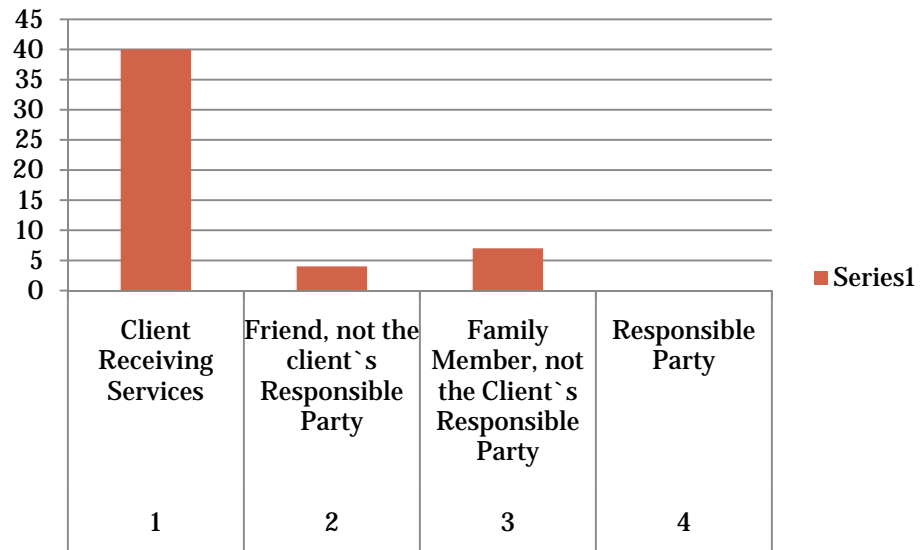

This survey is not to be completed by any employee of Home at Heart Care. We are specifically seeking our Client's and Responsible Party's opinions, without the input or influence of any employee or staff member.

Please do not provide your name or any information that would identify you the Client, either on the survey or the return envelope. If you have something that needs to be brought to our attention please communicate that information in a separate letter or talk directly to your Registered Nurse or myself, Bruce Emmel. If you have other comments, they can be put on the last page.
